MINISTRY OF HEALTH & FAMILY WELFARE

GOVERNMENT OF INDIA

MAHMAN BHAWAN,

NEW DELHI - 110 011

P R E F A C E

India presents a unique case in terms of sheer size of its population characterized by heterogeneity in respect of physical, economic, social and cultural conditions. Its population of 685 million accounted in 1981 (double of the 1947 figures of 342 million) for about 15% of the total world population with only 2.4% of the total land area (3287.3 thousand sq.km.). The present estimate of the population as on 1st March '89 is about 806.7 million of which 76.69% resides in almost 6 lakh villages spread over 412 districts (1981 census).

The Republic of India has a federal structure consisting of 25 States and 7 Union Territories. According to the latest estimates released by the Registrar General of India based on SRS, the All-India figures of birth, death and infant mortality rate are given as hereunder:

Area	Birth * Rate	Death * Rate	Infant * Mortality Rate
Combined	32.2	10.9	95
Rural	33.7	12.0	104
Urban	27.4	7.4	61

* = For 1987

The Constitution of India envisages the establishment of new social order based on equality, freedom, justice and the dignity of the individual. It aims at the elimination of poverty, ignorance and ill-health and directs the State with regard to the raising the level of nutrition and of the standard of living of the people and amongst its primary duty, securing the health and strength of workers, men and women, especially ensuring children are given opportunities to develop in healthy manner. Constitutionally while public Health, sanitation, hospitals and dispensaries are the responsibilities of the States, population control and Family Planning, drugs, prevention of food adulteration are concurrent subjects.

India achieved independence in 1947. Soon thereafter, in 1951, India initiated the process of planning development to raise the living standard of its people, and to open up for them new opportunities for a richer and more varied life.

The programme of establishing of primary health centres with 3 sub-centres and 4 to 6 beds per primary health centre (PHC) in Community Development Block, having a population of 60,000 to 80,000 was launched as an integral part of the Community Development Programme in October, 1952

Consequently, over the past exceeding 3-1/2 decades the health services organisation and infrastructure have undergone extensive changes and extension in stages following review by a number of expert committees, namely the Mudaliar Committee (1962), Chadha Committee (1963), Mukharjee Committee (1966), Jungalwala Committee (1967), Kartar singh Committee (1973), and Srivastava committee (1975). Progressive changes have been

introduced into the programme over the 6th and 7th Five Year Plan periods.

India is a signatory to the Alma Ata Declaration of 1978 and is committed to attaining the goals of "Health For All" by year 2000 A.D. through the primary health care approach. Consequently while formulating the 6th Five Year Plan (1980-85), a critical review was made of the approaches adopted during the previous Five Year Plans. Based upon this, a long term perspective plan was outlined by the Government for achieving the Health For All goals. The National Health Policy was officially adopted by the Parliament in 1983. Health For All principles and strategies were also incorporated in the 6th & 7th Five Year Plans.

After India became a signatory to Alma Ata Declaration of 1978, the Government has started concentrating on the development of rural health infrastructure so as to provide health care services to about 80% of rural population which had by and large remained neglected. The stress in the National Health Policy is on the provision of preventive, promotive and rehabilitative health services to the people, thus representing a shift from medical care to health care and from the urban to rural population. The main objective is to place the health of the people in hands of the people through the primary health care approach.

The delivery of Primary Health Care is the foundation of rural health care system and forms an integral part of the national health care system. For developing country's vast human resources and for the acceleration and speeding up of the socio-economic development and attaining improved quality of life, Primary health care is accepted as one of the main instruments of action. Primary Health Care is essential health care for all citizens, easily accessible and at a cost which the citizens and community can afford.

In the rural area services are provided through a network of integrated health and family welfare delivery system. Health care programmes have been re-structured and re-oriented from time to time for attaining the objectives of national health policy for HFA by 2000 A.D. Priority has been accorded to extension, expansion and consolidation of the rural health infrastructure viz., sub-centres, primary health centres and community health centres. Primary Health Care pays particular attention to the point of initial contact between the members of the Community and the health services. Sophisticated and specialised needs are referred to secondary and tertiary levels. The dimensions taken into consideration while delivering health services in rural area are : i) appropriate technology, ii) affordability, iii) availability, iv) accessibility and v) acceptability.

Details of the rural health programmes are given here under:

i. DAIS TRAINING PROGRAMME:

Dais training programme aims at imparting training to all traditional practising dais in the country and is receiving priority attention in order to reduce the maternal and infant

mortality rates by conducting aseptic deliveries and provide better ante-natal and post-natal care. The duration of the training is one month. So far 585780 dais have been trained.

ii. VILLAGE HEALTH GUIDE SCHEME:

The scheme was introduced during Oct.1977 with the objective of providing a cadre of voluntary health workers selected by the village community, and they would undergo training of 3 months duration in the promotive, preventive and elementary health care aspects so as to provide integrated primary health care services at the village level. This Volunteer would undergo training at the nearest PHC or sub-centres. So far, 408642 health guides have been trained.

iii. SUB CENTRES:

Sub-centres are being established on the basis of one sub-centre for every 5000 population in general and for every 3000 in hilly, tribal and backward areas. Each sub-centre is manned by a trained female Health Worker (ANM) and a trained male Health Worker. All the sub-centres required in the country would be established by 31.3.1990.

iv. PRIMARY HEALTH CENTRES:

Primary health centres are established for an average of every 30,000 rural population in general and for every 20,000 population in hilly, tribal and backward areas. This primary health centre is manned by a Medical Officer, and other para-medical staff. All the primary health centres required in the country are expected to be established by 31.3.1990. Each PHC provides supportive supervision to 6 sub-centres and serves as a referral institution for these sub-centres.

v. COMMUNITY HEALTH CENTRES:

It has been decided to have one community health centre for every 80,000 to 1.20 lakh of population so as to serve as a referral institution, having a minimum of 30 beds and 4 specialists, for 4 Primary Health Centres. By 31.3.1990, it is expected to have 50% of the total required community health centres in position in the country.

The present status of sub-centres, primary health centres and community health centres is given below :

Institution	No. in position * as on 30.9.89	No. required by 31.3.90
Sub-centres	1,21,874	1,30,000
Primary Health Centres	19,184	21,666
Community Health Centres	1,666	2,708

* Provisional

vi. TRAINING FACILITIES:

A large number of training centres/schools have been established in the country to train ANMs, LHVs and Multipurpose Workers (M). Regional Teachers Training Institutions have also

been established in order to meet the shortage of Nursing teachers/nurses in the Female Multipurpose Worker. Health Worker (Male) Schools are being established in the country. Training programmes have also been initiated for the training of lab-technicians, community health officers (CHO), pharmacists and specialists working at primary health centres and community health centres. 47 Health & Family Welfare Training Centres (H&FWTCs) are also playing a very useful role in the training programmes.

S T A F F I N G P A T T E R N

A. STAFF FOR SUB-CENTRE		No. of Posts
-----		-----

NATIONAL NORM

1. Atleast one trained dai.....for each village.
2. One trained Village Health Guide.....For each villge/
1000 population.
3. One Sub-Centre.....for every 5000 popul-
lation in plain area
for 3000 population
in tribal,hilly
and backward area.
4. One Primary Health Centre.....For every 30,000 in
plain area /
20,000 in hilly,
tribal and backward
area.
5. One Community Health Centre.....For every 80,000 to 1.2
lakh population,
serving as a referral
institution for four
Primary Health Centres.

I N T R O D U C T I O N

A Quarterly Bulletin on "Rural Health Statistics in India" is being regularly brought out by the Rural Health Division of the Directorate General of Health Services, Nirman Bhawan, New Delhi - 110 011. It provides information based on latest available statistical data on various aspects of the following major schemes :

INFRASTRUCTURE

- a) Establishment of sub-centres; Primary Health Centres and Community Health Centres.
- b) Number of PHCs & sub-centres required and in position in Tribal Areas.
- c) Construction of buildings for sub-centres and PHCs.

TRAINING

- a) Dais Training Programme
- b) Village Health Guide Training Programme.
- c) Alternative Health Guide Scheme.
- d) MPW Training Programme.
- e) Establishment of HW(F)/ANM and HA(F)/LHV Training Schools and their Training Programme.

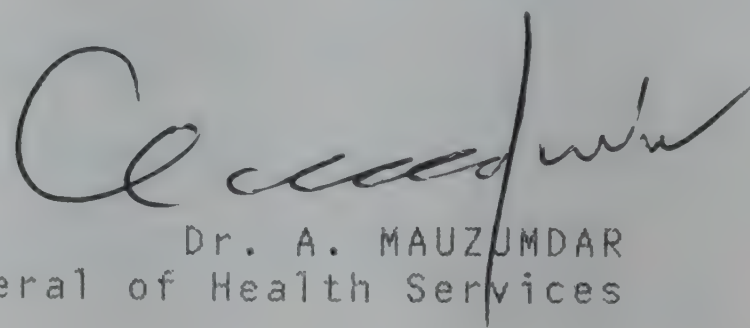

HEALTH MAN-POWER

- a) Health Man-power in Rural Areas.

The material of this Quarterly Bulletin has been divided into four parts. Part I contains all-India status in respect of primary health care facilities and some other relevant basic facts. State/UT-wise position of progress of primary health care facilities in India is given in Part II. While Part III contains some parameters of achievement by States and UTs in respect of rural health programmes. Additional reference tables containing useful and important facts have also been introduced in Part IV.

We express our deep gratitude to the States & UTs for making available their performance statistics in time for the inclusion of the same in the bulletin. However, inspite of our best efforts to get the information on time from all the States & UTs, still some States/UTs lagged behind in this regard. I place on record appreciation of the efforts put in by Shri R.K. Wasan, Deputy Director and his staff members Mr. D.V. Singh, Mr. B. Singh and Mr. P. Singh of Statistical Cell in bringing out this publication. Thanks are also due to Shri Yogesh Goel, Programmer and his colleagues for computerisation of this Bulletin.

It is hoped that this quarterly bulletin will be used as an important source material by those who are involved in the field of health administration, planning & management and decision making for implementation of various rural health schemes, in spite of some inherent limitations.

Dr. A. MAUZUMDAR
Dy. Director General of Health Services

SOME PARAMETRES OF ACHIEVEMENTS
OF RURAL HEALTH SCHEMES.

IN INDIA

STATEMENT - XVI

LEVEL OF ACHIEVEMENT OF SOME NORMS.
ALL INDIA POSITION AS ON 30.9.1989

Sl. No.	Parameters/indicators	National Norms	Norms achieved/ established (Approximate)
1	2	3	4
1	Population covered by a Sub-centre	3000-5000 Pop.	4862
2	Population covered by a PHC	20,000-30,000 Pop.	30887
3	Population covered by a Community Health Centre	About 1 lakh Pop.	3.56 Lakhs
4	No. of sub centres for each PHC	6 Sub-centres	6.3 Sub-Centres
5	No. of Primary Health Centres for each Community Health Centre	4 PHCs	11.5 PHCs
6	Trained Village Health Guide	One for each Village/ 1000 population	1.38 Villages/ 1291 Population
7	Trained Dai	Atleast one for each village	1.00 Villages 1011 Population
8	Population served by Health Workers (Male and Female)	M: 3000-5000 F: 3000-5000	7230 5010
9	Ratio of HA(M):HW(M)	1:6	1:3.3
10	Ratio of HA(F):HW(F)	1:6	1:6.8
11	Average Area covered by a Sub-Centre		25.79 Sq. km.
12	Average Area covered by a PHC	-	163.85 Sq. km.
13	Average Area covered by a CHC	-	1886.70 Sq. km.
14	Max.radial distance covered by a Sub-Centre (in km.)		2.86 Km
15	Max.radial distance covered by a PHC (in km.)		7.22 Km
16	Max.radial distance covered by a CHC (in km.)		24.50 Km

CLASSIFICATION OF STATES/UTs ACCORDING TO COVERAGE OF
POPULATION BY A SUB-CENTRE.

Sl.	Range of No. Population	No. of States/UTs in the range	States/UTs having achieved the population range	
1	2	3	4

SOME APPENDICES

STATEMENT XXI

8TH FINANCE COMMISSION GRANTS FOR UPGRADATION OF STANDARDS OF

ADMINISTRATION : HEALTH SECTOR :

In order to attract doctors to the rural areas, the 8th Finance Commission had recommended the following incentives:

- Construction of 5600 residential quarters for the PHC doctors at a recommended cost of Rs.4950.26 Lakhs. *no. of PHC*
- Grant of rural allowances to the doctors working in the rural areas at the rate of Rs. 250/- p.m. *education in fields*
- Grant of house Rent Allowances @ Rs. 150/- p.m. wherever accommodation is not provided ; and *not adequate*
- Grant of Rs. 40,000/- per PHC for purchase of equipment to ensure professional satisfaction of doctors. *not enough. list of equipment required at PHCs*

9TH FINANCE COMMISSION'S RECOMMENDATION

The 9th Finance Commission in their first report have recommended an outlay of Rs.946.36 Lakhs for upgradation of standards of Health Administration in 16 States during 1989-90. This amount is meant for the construction of additional quarters for Doctors working in PHCs. The unit cost of construction assumed by the Finance Commission is Rs.1.25 lakhs for plain areas and Rs.1.62 lakhs for hilly areas. The detailed State-Wise grants recommended by the 8th Finance Commission and utilisation thereof and the grants recommended by the 9th Finance Commission for 1989-90 are given below:
